MESSAGE FROM THE CHIEF ELECTORAL OFFICER, MANIPUR

Manipur is a small State where more than 90% of the total area is covered by hills where 60% of the population is confined to Imphal valley. It is inhabited by different ethnic groups spread across 16 revenue districts.

Given the presence of difficult terrain, unfavourable law and order situation, large number of communities spread across the state, inadequate transport and communication facilities, presence of interest groups, non-state actors and so on, conduct of Elections in Manipur has always been a challenging and humongous task. Despite all such challenges, the election machinery has been able to ensure conduct of free and fair elections because of meticulous planning in advance, effective awareness campaigns, rigorous training of all stakeholders and special emphasis on preventive measures to obviate law and order problems.

I am happy to say that the voters of Manipur have shown umpteen enthusiasm in every elections held in the past. This time in the 12th General Elections to Manipur Legislative Assembly-2022, the voter participation reached all-time high recording 90.28% as compared to 86.59% in State Assembly Elections held in the year 2017. I am also delighted to highlight that, 604 all-women polling stations were set up as symbol of women empowerment which was 1/5th of the total polling stations. This has been the highest in the country. On the accessible elections front, I am extremely pleased to say that over 95% of the registered alive 100+electors participated in voting either through Postal Ballot or by voting on Poll Day. Further, over 90% of the PwD voters exercised their franchise. Such is the level of enthusiasm of the voters of Manipur irrespective of age, gender, religion, community when it comes to exercising their voting rights.

I wholeheartedly appreciate all the election machineries including District Election Officers, Returning Officers, Assistant Returning Officers, BLOs, Nodal Officers, polling officers and all other field functionaries in the district who had made significant contributions to the conduct of elections. I also thank law enforcement agencies both at the State and District for their effective management of law and order thereby resulting into a peaceful poll. I also thank political parties, media houses, CSOs/NGOs, State Icons for their overwhelming cooperation extended to us in successful conduct of elections. Randomization Software for Polling Personnel (RSPP)

The Chief Electoral Officer, Manipur developed a web-based randomization software to cater to the local requirements as well as need for special cases related to difficult hilly terrain locations of the Polling Station where dispersal takes place on P-2 or P-3 days. The required age and physical fitness for these polling personnel were considered.

Key Features & Functionalities

- RSPP applications provide complete functionalities of Randomization viz. Polling Personnel Randomization, Police Personnel Randomization and Counting Personnel Randomization.
- Centralised hosting is done at National Informatics Centre Manipur State Unit, Imphal. No need to maintain servers, storage etc., at District level.
- Polling personnel are dispatched two to three days ahead for Polling Station located in difficult hilly terrain.
- Staffs are deployed through three stages of randomization.
- RSPP also provided exemption feature based on medical ground.

Polling Personnel Randomization

In the first stage, polling parties are constituted randomly with the help of RSPP software. The process involves randomly picking at least 20% more officers than the required number, then this group is trained for election duty.

In the second stage, polling parties are formed from this group of trained officials. This process also involves randomization through RSPP software. However, in the second stage, General Observers appointed by Election Commission are involved to ensure the integrity of the randomization process.

In the third stage of randomization, polling booths are randomly assigned polling parties just before their departure. It means, these randomly created polling parties do not know the specific polling booths where they will be deployed till the time of their departure.

Police Personnel Randomization

Similar three-stage randomization is conducted for police personnel as well.

Counting Officials Randomization

The counting official's randomization is also done in three stages.

In First randomization, a list of 120% of the required number of officials (Counting Supervisors/Counting Assistants/Micro Observers) required for counting in the district, are generated (including reserve) randomly, using the RSPP software by the District Election Officers one week prior to the date of counting. Presence of observers is not required at this stage. This is only to identify and select the officials who would be given duty for counting as Counting Supervisors/ Counting Assistants/ Micro Observers. In no case, at this stage, the identity of the assembly constituency to which the Counting personnel are likely to be deployed is disclosed. The appointment letters are issued by the RO concerned.

The Assembly Constituency wise randomization i.e. Second randomization is done by the District Election Officers in presence of Observer(s) 24 hours prior to commencement of counting. Thereafter, the Returning Officer issued the appointment letters to these officials intimating them about the concerned allotted ACs.

In Third randomization, the allotment of counting tables in the counting hall, to the Counting Supervisors/Counting Assistants/Micro-Observers is done in the presence of ECI Observer at 5.00 AM on the day of counting.

SVEEP

Mission 300

Elections in Manipur have always seen active participation from the electors, thereby posting a respectable voter turn-out percentage. However, due to social, geographical, and logistical challenges, some polling stations receive lesser voter participation. This has been a consistent trend in almost every election. These polling stations have been lowering the state vote percentage in every election.

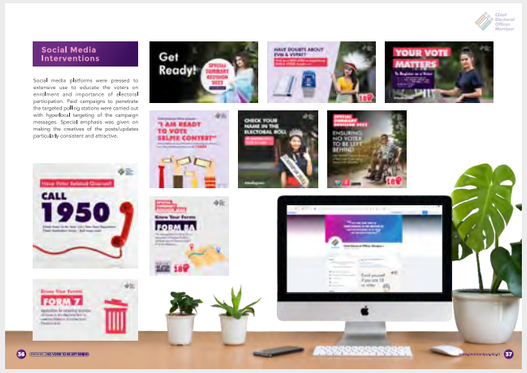

With the objective of addressing this issue and increasing the voter turn-out in these polling stations, the state election team did a comprehensive brainstorming and came up with a remedial campaign under the name 'Mission 300'. Under this campaign, 300 polling stations with the lowest voter participation in the 11th State Assembly Elections were identified. Strategies were made, and plans were drawn to implement them in a systematic and organised manner.

A series of targeted interventions, including awareness programs, regular meetings at various levels, door-to-door visits, systematic follow-up SOPs and various other activities, were thus undertaken. Arrangements of facilities that were previously unavailable in these polling stations were considered and put in place to help achieve the goals of Mission 300. In addition to spreading awareness in the area, there was continuous engagement with them through booth level WhatsApp groups administered by the BLOs and even relocation of Polling Stations more centrally to improve access to vote.

This report aims to cover and highlight the various initiatives and activities CEO Manipur implemented under Mission 300 in its collective endeavour to outdo past performances and bring the identified polling stations at par with the state average.

HEALTH

Major Highlights

- Rapid Response Teams (RRTs) activated in all District Headquarters and Assembly Constituencies for attending health exigencies
- Training, dry run, evacuation plan etc.
- Command Centres set up at State, District , AC.
- Air ambulance for lifting of casualty polling and security personnel

During the conduct of elections, polling parties including the security personnel experience difficulty in reaching far-flung polling stations. At times of medical needs, they often face tough times in reaching the nearest health centres in time and sometimes they may be referred to well-equipped health centres for further treatment which may need immediate attention or may face untimely death. The scenario of COVID pandemic during the conduct of General Election 2022 was a big challenge for a small hilly state like Manipur. The safety of the polling personnel and general public was at huge risk.

While keeping in mind the safety of the polling parties and the voters at large, various activities were taken up in coordination with Health Department. Precautionary doses were provided to all the Polling Personnel and elderly voters. Providing of Masks, hand gloves, hand sanitisers and ensuring physical distance of 6 feet among the voters on the day of election were ensured. Steps were also taken to ensure that COVID positive persons vote at the last hour of voting by providing PPE and transport vehicle to the polling station. Adequate measures were also taken to provide treatment to injured polling personnel at the quickest possible.

COVID Safe Elections

- All polling stations were sanitized one day before poll
- ASHA and Anganwadi workers deployed for thermal scanning and queue management
- Two volunteers engaged for each Polling booth for queue management
- Marking of circles with adequate distancing

SECURITY MANAGEMENT

Election in the insurgency affected State of Manipur is always a challenge. There are more than 30 different groups of armed militants operating in the State on communal lines. At the time of election, they engaged in threats and intimidation to extort money from candidates and to project their favoured candidates. The valley based armed militants continuously tried to disrupt the election process by way of ambush and killing of security forces.

Effective maintenance of law and order, preventive measures including vigorous CI Ops, frisking, and checking, seizure of cash in circulation, seizure of illicit liquors and banned drugs, disposal of pending cases and NBWs helped were taken up for peaceful conduct of election.

To meet the requirement of armed security for deployment in all polling stations, 300 Coy of CAPF/State police from other State was deployed during the election. Out of which 265 Coy/State police was inducted from outside after elections in Goa and Punjab was over.

Communication was maintained with concoction of satellite phones, cell phones, Police and CAPF wireless networks and 'message runner'.

Further, more than 800 different types of vehicles were hired from Assam for election duty in the State. Despite the myriad challenges, meticulous planning and effective supervision ensure smooth deployment in all polling stations and de-induction afterwards.

The State Police took up various effective measures to maintain law and order in the run up to election. The State witnessed pre-poll violence in Thoubal, Imphal East West district, Kangpokpi and Churachandpur districts.
