Election Commission of India

Index Card Module

- The data entered online by the Returning officers for their constituency is verified by Chief Electoral Officer and then by the Statistical Division of ECI.
- The system is designed in such a way that it provides a great help to the verifying officers by showing the exceptions where the data is not entered correctly.
- This module helps the Election Commission to generate different statistical reports that are then published on the ECI website for Public view and analysis.

Index Card Module

- Wrongly finalised data: If RO has wrongly finalised the data and need to do more corrections, then a request need to be raised to Statistical division of ECI for definalise.
- Data entered online is not matched with physical Index card copy: ROs must ensure the data entered online should exactly match the hard copy of Index card before finalising the data.
- Delay in entries: ROs should ensure to make the entries on time as per the directions
